

The Wi-Fi network you access on campus/office varies depending on whether you're connecting a personal device, a company-owned laptop, and your current location. Please refer to the list of Wi-Fi networks below, broadcasted at all UP-Education sites, to determine the appropriate network for connecting your device.

Education Wifi	Up Education	Up Education Guest
		
<p><b>Personal BYOD Devices</b> Used for connecting <b>personal BYOD devices</b> of both students and staff across all sites in <b>New Zealand and Australia</b>.</p>	<p><b>Company Owned Laptops</b> Used for connecting company-owned laptops for staff operating from <b>Australian campuses/offices</b>. This Wi-Fi is also used to connect New Zealand staff members who <b>do not primarily work from a campus/office</b> or for those who are <b>BANZ staff members</b>.</p>	<p><b>Guest BYOD Devices</b> Used to connect guest users at all New Zealand and Australian sites.</p>
<p><b>Company Owned Laptops NZ Only</b> Utilized for connecting company-owned laptops for staff primarily <b>operating from a campus/office in New Zealand (excluding Australian sites)</b>.</p>		

For a company issued laptop, it should connect automatically and normally does not require you to connect to a Wi-Fi network manually. If you do have to connect manually, please follow the guidelines on the next page.

If you believe that you do not have a Wi-Fi connection and you need to connect it manually, then follow the steps below.

**Step 1:** Open the web browser and confirm that your device has no internet connection.

**Step 2:** Check your devices connection icon to confirm it has no connection.

**Step 3:** Find the **Education Wifi** or **Up Education** network and click **Connect**.
